ABOUT EXPERTISOR ACADEMY

Two college-broken minds. One big vision.

We saw the gap, education teaches but reality demands more. True mastery comes from learning directly from those who have done it, implemented it, and created real impact.

That is why we built Expertisor Academy, a platform where impact driven creators become mentors.

From a small idea to thousands of students impacted, we are now on a mission to build the world's biggest creator ecosystem and empower millions of learners with practical, real world education.

Our Philosophy: Top-quality education should be affordable and driven by value. Money is a by-product of creating real impact

INSTRUCTOR PROFILE

01

Raghulan Gowthaman

Founder @ Virtua Tech | Tech & Civil Expert

20+ years in Architecture, Design & Visualization

Back in 2012 I lost my job. It was the hardest moment of my life, but also the turning point. Instead of giving up, I started my own company Virtua Tech, which later grew into a million dollar company. With 20+ years of experience in Technology and Civil Engineering, I decided to document my entire knowledge here so learners like you don't have to start from zero.

Lost my job, found my vision

Built a Million-Dollar Company

Worked on FIFO & Large-Scale Projects

Today, I bring you 3ds Max courses to help you avoid the mistakes I made and grow faster in your career. With expertise in design, visualization, and architecture, I share practical, real world insights that go beyond theory.

With my experience, the best way to learn is from someone who has done it all

WHO IS THIS COURSE FOR ?

02

Eligibility & Fit Check

Civil Engineering Students

Gain a competitive edge before you graduate by mastering industry-standard 3D tools.

Working Engineers

Execute your own design ideas without depending on external teams full control, faster delivery.

Infrastructure Professionals

Accelerate project timelines with precise modeling and visualization workflows.

Contractors & Design-Build Teams

Reduce outsourcing costs by bringing key design work in-house with confidence.

Beginners & Career Switchers

Start from the fundamentals and build real-world 3D skills step by step
no prior experience needed.

COURSE SYLLABUS

03

Track 1: Fundamentals – Build Your 3DS Max Foundation

Module 1 Introduction & Transformation Basics

- Getting started with 3DS Max: Interface overview & navigation tools
- Transformation tools: Move, rotate, scale with precision control

Module 2 Object Creation

- Standard primitives & extended primitives: Basic shapes creation
- Compound object creation & shape merge techniques: Combining complex geometry
- Adding 3D text: Create and modify text
- Scatter vs paint object tools: Distribute objects creatively
- Terrain creation for landscapes: Build realistic ground surfaces
- Surface editing & soft selection: Organic shape manipulation

COURSE SYLLABUS

04

Module 3 Materials & Texturing

- Applying materials like a pro: Assign and manage textures
- Adding reflections, bump maps & displacement maps: Enhance surface realism

Module 4 Animation Essentials

- Basic animation tools & workflows: Keyframes and timelines
- Curve editor for smooth motion: Refine animation transitions
- Path animation for controlled movement: Objects follow paths

Module 5 Animation Essentials

- Organizing objects & core modules of 3DS Max: Scene hierarchy and structure
- Rendering still images & animations: Export final visuals

COMPLETION & CERTIFICATION

05

Your Efforts, Officially Recognized!

COURSE COMPLETION CERTIFICATE :

Learners completing the 3ds Max Mastery Program receive a Course Completion Certificate from Expertisor Academy. This validates skills in 3D modeling, rendering, and visualization with Autodesk 3ds Max. The certificate enhances your portfolio, boosts industry credibility, and improves career opportunities in architecture, interior design, product visualization, and animation.

HOW TO ENROL?

06

Step 01 Join Now & Complete Payment

- Click the “Join Now” button on our website
- Secure payment via UPI, Card, or NetBanking.
- You’ll receive confirmation via Email

Step 02 Receive Your Welcome Kit on Email

- Login credentials
- Community invite
- Orientation and success roadmap

Step 03 Start Learning Instantly!

- Get instant access to all modules.
- Follow step-by-step strategies.
- Start implementing from Day 1.

ENROL NOW

THANK YOU

Your Transformation Starts Now

What if you could walk into any design meeting with jaw dropping 3D visuals that you created? Imagine being the 3D modeling expert everyone turns to for solutions. Stop wondering if you're ready ,Start mastering 3DS Max and build the career you deserve
